

CardCollection

```
classDiagram
    Hand --|> CardCollection
```

The diagram illustrates a class hierarchy. At the top is the 'CardCollection' class, represented by a rectangle with a double-line border and two horizontal lines below the name. Below it is the 'Hand' class, represented by a rectangle with a double-line border and two horizontal lines below the name. A vertical line connects the bottom of the 'Hand' class to a hollow triangle pointing upwards at the bottom of the 'CardCollection' class, indicating that 'Hand' inherits from 'CardCollection'.
